Niagara Falls Notes

Niagara Falls: actually there is not one fall which is called Niagara Falls. What we commonly refer to as Niagara Falls is made up of three separate falls..... The American Falls and the Bridal Veil Falls on the American side and the Horseshoe Falls on the Canadian side. By far, the most spectacular is the Horseshoe Falls on our Canadian side..... Let's hope Mr. Trump never finds out about this..... we may have another border dispute! On either side of the Gorge are the Cities of Niagara Falls, Ontario and Niagara Falls, New York.

We will no longer have to do the long walk down the gorge to board the boat to visit the Falls. Our group will board the new funicular which will take us down in 1.5 minutes, offering amazing views of the Falls. We will then board the **Hornblower** for an evening Fireworks or Illumination cruise to view and experience the thunder of the Falls. As of today, they have not yet provided their 2019 schedule..... We'll let you know as soon as we know. The Hornblower operates on the Canadian side, replacing the Maid of the Mist which is American-owned and operates from the American side only.

The **Floral Clock**, built in 1950, is one of the world's largest at 40 feet in diameter, with over 16,000 plants covering the clock.

We will visit the **Butterfly Conservatory** where we will be transported to a tropical paradise full of lush vegetation, trickling waterfalls and thousands of vibrantly colored butterflies. Over 2,000 butterflies, made up of 45 different species, call this beautiful space home.

The **Floral Showhouse** is a oasis paradise, featuring collections of orchids, succulents, and other tropical plant species on display throughout the year, along with floral shows that reflect the changing seasons.

The **Skylon Revolving Dining Room** offers award-winning cuisine, atop the Skylon Tower, with a legendary view of the Falls. Their signature Yellow Bug elevator will take us to the top of the 775' tower in 52 seconds!

The **Musée des Anciens Canadiens** in Saint-Jean-Port-Joli, Quebec, is the most prestigious wood-carving museum in North America. You will marvel at the magnificent works of renowned artists, among which is my favorite, the *La Naissance Virginale*, carved out of a 8'x15' wood panel. I'm sure if you stay in front that this panel even for just a few minutes, you'll be forever amazed by the intricate details in this work-of-art!

Answers to FAQ about tipping

- * It is customary to leave at least a \$2.00 tip for the hotel housekeeper as well as a \$1.00 tip for the person in charge of the breakfast room
- * Although the dinner shows we attend usually include a small tip in the price we have already paid, an additional \$1 or \$2 tip will be welcomed by the servers
- * Tipping for the bus driver and tour guide is absolutely discretionary and should be based upon the service received (\$1.00 - \$2.00 per day per person is the norm for these type of tours and is usually paid individually at the end of the trip.)
- * It is also customary to leave a tip to the step-on guides we hire for our city tours.
